## Tips for safe travels from UT Health Quitman.

**Like millions of Americans, your holiday season likely will involve some driving. So, we've assembled some road trip tips for you.**

**Have your vehicle checked.** Lights, oil, tires, belts, hoses, brakes, antifreeze and battery all need to be inspected before departure. Take along roadside assistance information and keep your cellphone charged in case of emergency.

**Review weather and road conditions.** Call 511, America's travel information line or visit [SafeTravelUSA.com](http://SafeTravelUSA.com) to learn information about your route. Consider travel times that avoid the heaviest traffic.

**Be prepared for emergencies.** Keep a blanket, boots, gloves, flashlight, food and water supplies in the vehicle. Cat litter or sand can be used to improve traction on icy surfaces.

**Buckle up.** Be sure everyone in the car is buckled up at all times, even for a quick trip down the road.

**Stay alert when driving.** The National Highway Traffic Safety Administration estimates that nearly 100,000 crashes a year are the result of driver fatigue. To combat this, get eight hours of sleep before departing and take breaks - approximately 15 minutes for every two hours on the road.

**Let's not meet by accident.** At UT Health East Texas we know the dangers of driving because we treat hundreds every year for vehicle-related accidents at our emergency and trauma centers. We hope these tips help you travel safely and have a happy holiday season.
