MISSION

To provide Montgomery County residents, businesses and industries, non-profit organizations, and local governments the education and support necessary to reduce the loss of life and human suffering; to minimize property damage; and to protect environmental sensitive areas from all types of disasters through a comprehensive, risk-based, all-hazard emergency management program.

VISION STATEMENT

The goal of the Montgomery County Emergency Management Agency is to educate the Citizens of Montgomery County about their ongoing role in preparing for emergencies through education, community outreach and training. Through creating an increased emphasis on disaster preparedness, the Montgomery County Emergency Management Agency looks forward to reinforcing interdepartmental communications and cooperation throughout our County, while creating a community culture of preparedness and fostering partnerships with local public and private groups and businesses. It is the goal that Montgomery County Emergency Management Agency will work with the community, neighbor helping neighbor when a disaster strikes.
