Brickyard Nature Park

Located at 759 N. Concord Rd the Brickyard Nature Park is a 104 acre park full of natural beauty. This park gets its name from Crawfordsville Shale Brick Company that once operated at the site. The park offers several trail options a short paved accessible trail leading to an overlook of the pond. This pond served as the shale pit for the brick factory. There is a 1.1 mile crushed stone walking trail along with 2.2 miles of dirt mountain biking trails. In partnership with the Montgomery County Soil and Water Conservation District a prairie has been planted inside the loop of the walking trail in what was once a farm field. This creates an ecosystem that mimics a natural landscape healing the degradation from decades of agriculture. Open dawn to dusk.
