

Church Security Companies

Consultants, Companies, & Attorneys

The Kentucky Baptist Convention has six Regional Consultants who work closely with churches and associations in every area of church life including church security. They can help your church identify initial church security measures that can be implemented immediately. They can make a presentation to the church or a group of leaders that will raise awareness for the need of a good security plan, provide first steps, and help a church take next steps.

- Alan Witham, Central Region Consultant, 502-836-9447

Triple Counter Measure

Triple Countermeasure was created by military and law enforcement veterans with the purpose of bringing expert level knowledge and training to your church or company's security needs. Triple Countermeasure will enable you with the tools and skills you need to have to survive an assault. In a dangerous world, if you look like food, you will be eaten. Take control. Protect yourself, your property, and workers today.
