

Mapping and Community Mobilization

A. Find all zip codes for your area: <https://www.unitedstateszipcodes.org/>

Leadership must decide what areas your churches will be engaging with The Gospel to Every Home (GTEH.). One way is to look at all possible zip codes that need to be engaged in your mission area. The website United States Zip Codes will help make this task simpler; you can use the search by counties to get every zip code in your area. Once you know which zip codes are in your reach area, then go to Saturate USA to adopt your area.

NOTE: Because of county lines are not constant with locations of churches in our associations, you may need to be in communication of another association leader. This way the entire county will be reached.

B. A place to map your mission field: <https://www.saturateusa.org/>

You will find that Phil Cohn is very helpful as well as passionate about reaching the US with the message of the Gospel. Phil's cell phone is (704) 773-6451 and his email is pcohn@christforallpeople.org. He is extremely helpful.

1. Claim your zip codes
2. Get the number of homes per zip code
3. Free Evangelism Resources will be sent to your association for each zip codes your association adopts

C. The ability to take the zip codes and divide them into carrier route

<https://eddm.usps.com/eddm/customer/routeSearch.action>

Once you have your zip codes adopted, you will need to break these down for churches to adopt a geographic size that matches the manpower to reach.

D. Engaging your people to be able to see their neighbors

<https://blesseveryhome.com/>

Beginning in prayer and prayer walking is best so that your people can best engage their areas. Bless Every Home is a tool to help church leaders acquire an area for which to pray. This may not be necessary for your project, but its a great tool to get your people engaged in praying over their neighbors.

E. KY Department of Transportation is a resource for large wall maps.

These can be used to highlight locations for local church delivery area.

F. Other resources:

County PVA, County Clerk, Tax Recorders, Utilities, Building and Codes Departments...

Kentucky Baptist Demographic Studies

Mobilizing Community

1. Who are influential members in the association that can help pastors engage them in this project?
2. Communicate with every pastor in the local association.
3. Allow churches to adopt areas to pray over and deliver evangelism material.
4. Develop training for church leaders in which they can engage church members.
5. Create a follow up plan for the areas.
6. Pray like eternity is at stake.
