

Gift Guide

2017

THE LAS CRUCES
Bulletin

Gifts, stocking stuffers for people with active hobbies

It's the gift-giving season and rather than give generic presents to everyone you love, consider thoughtful items that will make their lives easier and hobbies more fulfilling.

TRAVELERS

Travel lovers on your holiday shopping list? Frequent fliers will appreciate customized luggage tags that will make spotting bags a cinch. Add comfort to all those redeye flights with a memory foam neck pillow. Newer models even offer features like pockets for smartphones and

built-in earbuds.

RUNNERS/ DOGWALKERS

Not everyone is exploring the neighborhood in the dark, but runners and dogwalkers often are, especially when days are short. Consider brightening their way to make adventures safer with a headlight. For bright light of up to 180 lumens, the Energizer Vision HD headlight is an affordable, practical stocking stuffer. To light the path for both owner and pet on those wintry nights, the headlight features three light modes and

pivoting functionality to direct light where one needs it. It's also weather resistant and drop-tested up to 1 meter to stand up to harsh conditions. Running at sunset or at sunrise, an innovative smart-dimming feature provides users with maximum run-time to brighten hands-free activities at any time of the day.

YOGIS

There are many great gift options for those who love yoga. Consider a personalized yoga mat, which you can design through an online site

that lets you upload any image you want to create a meaningful gift. Select a picture of a beloved pet or a rendering of their favorite piece of artwork for a truly unique yoga mat. Or, help them take their practice to the next level with a gift certificate to a studio offering advanced classes, such as hot yoga or aerial yoga.

OUTDOOR ADVENTURERS

Give the gift of light to your favorite outdoor adventurer with an Energizer Vision HD performance metal light with Digital Focus. The

PHOTO COURTESY TIERNEY/STOCK.ADOBE.COM

one-press digital focus easily transitions from a full spotlight to a full flood light to help with fireside cooking or setting up the campsite. For hiking and climbing, the aluminum alloy exterior makes it a durable choice. Its impressive run-time, paired with powerful light output and a natural daylight color, make this

flashlight a must-have gadget for those whose adventures include any kind of outdoor excursion. More information can be found at energizer.com/lighting.

This holiday season, thoughtful gift-giving can add light, comfort and personalized fun to loved ones' busy lifestyles.

Fun holiday tech gift ideas for kids

Looking for some kid-friendly tech gear this holiday season? Here are some on-trend gift ideas, featuring engaging content for kids.

WEARABLE TECH

Wearable tech is a great choice for energetic kids, as it seamlessly integrates innovative technology into their active lifestyles. For even more value, consider devices that combine fun with learning.

For instance, with the Kidizoom Smartwatch

DX2, they can take pictures and videos, play games, tell time and more. The durable watch features a sleek design that includes 55 customizable watch faces to help kids learn to tell time, as well as two cameras that allow children to capture everything from action videos to selfies that can be customized in the Silly Yourself app or made into new watch faces. Kids can also use the watch's motion sensor for active play challenges or to track movements.

The watch features an assortment of innovative games, including Monster Catcher, which uses augmented reality to help kids find and capture virtual monsters in the real world.

GAMING SYSTEMS

Shopping for a gaming console? Seek out family-friendly options that offer opportunities for age-appropriate or educational gaming. Some consoles even provide parental controls, so monitoring use is easy.

CAMERA FUN

Little cinematographers and videographers may enjoy the Kidizoom Action Cam 180, a 180-degree rotatable camera that takes photos and videos with fun features like slow and fast motion. It comes with accessories needed to mount it to a bike, skateboard and more while taking action shots. The all-weather, water-resistant case allows for use up to six feet underwater, perfect for swimming and splashing. For even more fun, kids can play one of three included games.

DRONES

Kids have always loved flying toys and with the technological advance-

ments in drones, they can be had at all price points with a wide variety of capabilities. For beginners, you'll want to consider durable drones with easy controls. Just be sure to look into local rules and regulations to be sure you're flying in appropriate places that aren't restricted.

HANDHELD DEVICES

With quality content and robust features similar to those found in parents' smartphones, KidiBuzz lets children message over Wi-Fi to a parent-approved contact list. They can also push the talk button and send quick voice messages. Through the kid-safe web browser, users can visit

popular pre-approved websites, and can also download Android apps. It's also a multimedia player for listening to music and watching videos. Kids can explore silly stamps, frames and photo effects and use them to capture pictures and selfies or make their own videos with the 180-degree rotating camera. The device includes more than 40 learning games and apps and its bumper and shatter-safe screen means kids can take it virtually anywhere.

Make this holiday season the most exciting one yet for kids, with great new tech gear that engages, informs and entertains.
