Julianne Moore

OF GAME CHANGE ON HBO

Q: Someone told me that Julianne Moore started her career on a soap opera. Is that true?

A: Yes ... two of them, in fact. Her earliest professional credit is "The Edge of Night," on which she appeared for several episodes in 1984. Soon afterward, she joined "As the World Turns," playing the dual roles of Frannie Hughes and her look-alike relative Sabrina. She earned a Daytime Emmy Award for her work on that show, which she did continuously from 1985 to 1988; she then made a return appearance in 2010. Moore began doing primetime TV parts during her "As the World Turns" run, notably opposite Valerie Bertinelli in the 1987 miniseries "I'll Take Manhattan," then she was hired for TV-movies including "Money, Power,

Murder" and "The Last to Go." Around the same time, she also moved into theatrical films with "Tales From the Darkside: The Movie" and "The Hand That Rocks the Cradle," and that became her principal venue from the early 1990s forward, with her eventual win of an Academy Award for best actress for "Still Alice" (2014).

After doing guest stints along the way on "Saturday Night Live" and "Sesame Street," Moore made a particularly significant return to TV by playing former Alaska governor and vice-presidential candidate Sarah Palin in the 2012 HBO project "Game Change." She won a Primetime Emmy Award for the dramatization of the 2008 election season, with Ed Harris playing Sen. John McCain, who chose Palin as his running mate

"Grimsburg" - Season 1 (Jan. 8)

This new animated comedy stars Jon Hamm as Marvin Flute, who may be the greatest detective ever to catch a cannibal clown or correctly identify a mid-century modern armoire. But, there's one mystery he still can't crack — his family. Now that he's back in Grimsburg, a town where everyone has a secret or three, Flute will follow every lead he's got

to redeem himself with the ex-wife he never stopped loving, even if it means hanging out with the son he never bothered to get to know. Christina Hendricks, Amy Sedaris and Kevin Michael Richardson also voice star.

"Beyond Utopia" (Jan. 9)

They grew up believing their land was paradise. Now, they risk everything in escaping it. In an unforgettable documentary, follow families on a treacherous journey to defect from their homeland of North Korea, as the threat of severe punishment and possible execution looms over their passage, revealing a world many have never seen.

"Self Reliance" (Jan. 12)

Iake Johnson makes his feature film directorial debut in this new comedy thriller. Offered \$1 million to take part in a reality game show where hunters try to kill him, Tommy (Johnson) thinks he's found the perfect loophole: they can only attack when he's alone. But, when none of his family believe the game is real, Tommy finds himself fighting

to stay alive and learning that he has a lot to live for. Anna Kendrick, Andy Samberg, GaTa, Wayne Brady, and Emily Hampshire also star.

"MAGNUM P.I.: THE FINAL SEASON"

After being reprieved by NBC after CBS canceled it, the Hawaii-based detective series' last year was split into two half-seasons for telecast, with the last one coming in particularly handy when fresh programming was needed during the recent Hollywood strikes. The final episodes delve even deeper into the emotional connection between Magnum and Higgins (Jay Hernandez, Perdita Weeks), which they have to maneuver while continuing to deal with various crimes. Each of those two stars directed an episode each, as did fellow series regular Zachary Knighton, who plays Rick. A continuing subplot concerns a major personal challenge faced by helicopter pilot T.C. (Stephen Hill). Larry Manetti, who was Rick on the original, Tom Selleck-starring version of the show, makes a guest appearance. A "Complete Series" set also is available. *** (Not rated: AS, P, V)

"DOCTOR WHO: THE UNDERWATER MENACE"

Animation came to the rescue of this story in one of the most iconic of sci-fi franchises, restored as well as possible to mark the franchise's 60th anniversary. Since only two of the

four original episodes from 1967 still exist, the others had to be re-created using a cartoon technique, whereas surviving photo stills were used for those in an earlier release. Patrick Troughton is this tale's Doctor, who travels with his comrades to

Atlantis, where they combat a scientist's plot against Earth. This marked the first appearance by Frazer Hines as Jamie McCrimmon, while Michael Craze and Anneke Wills continued as Ben and Polly. Though the result has gotten mixed reactions over the years, at least it gives added exposure to a part of "Doctor Who" lore that basically was thought to be lost forever. ** (Also on Blu-ray)

"FAR HAVEN"

Many traditions of the Western genre are upheld by this tale, casting Bailey Chase as a man who returns home to trouble, exemplified in particular by an attack on his father-in-law. That prompts the returnee to try to put an end to the corruption that is running rampant in the area, turning him and other loved ones into targets. The cast includes such familiar faces as Amanda Righetti ("The Mentalist"), Bruce Boxleitner ("Babylon 5"), Nancy Stafford ("Matlock") and Martin Kove ("The Karate Kid"). Kove's son Jesse also is featured, and Chase's fellow "Longmire" alum A Martinez appears as well. ★★ (Not rated: AS, P, V)
