Keep the Movers Handy When You Buy or Sell With Randy

By Anthony Richards

Randy Martin and his team of realtors recently made the move to Compass after 19 years with Watson Realty Corp.

After being in one place for so long, it was not an easy decision and was one that Martin put a lot of thought into before making his choice and officially becoming a member of Compass in August 2021 and bringing Dan Schmidt and Lisa Verrino with him to be part of his team.

At the end of the day, it was a leap of faith that led him to Compass, and it is what continues to guide him and his team moving forward.

“It was not an easy decision at all,” Martin said. “All three of us are Christians and we prayed about this after every time we met to make absolutely sure that God was the one opening that door for us to make the move.”

“There’s a good trust level here,” Schmidt said. “We work well together and there’s not a lot of egos involved. We’re just trying to do the best we can and be good servants.”

*What our customers
say about us...*

Two of my friends recommended Creeks to me and I'm so glad they did. The estimator was friendly, open and honest and gave several options and the installers were courteous, on time and cleaned up the working area. Plus, the system works great. No one likes to have to buy a new AC in the middle of summer, but their price was fair and the work was good. Highly recommend! - Renay T.

From the moment you reach out to Creeks Air Conditioning and Heating you will recognize their professionalism and commitment to service are superior in the industry. The polite voice answering your call will reassure and work proficiently to accommodate answering your questions while placing your needs as their priority. From sales to installation, the representatives of Creeks Air Conditioning and Heating demonstrate their excellence in every aspect of their profession. I have called upon them on two separate occasions in two different homes (never the same unit) over the past 15 years and will continue to use them if I need HVAC repair or replacement.
